

Virtual Training Series on CSEC/CSAM: Keeping Kids Safe Online and In Real Life

DESCRIPTION

This presentation is for anyone who has kids or works with youth in any capacity. We will talk about the exploitation and issues kids are facing today, what types of child exploitation cases our state is seeing, and what you can do to help lower the risk of a youth you know experiencing exploitation. Attendees will walk away with tangible conversation starters and ideas that they can immediately start implementing into their daily interactions with youth. We will also cover the youth programming that Uprising can provide across your own community.
