# Multidisciplinary Team Training

## Strength in Collaboration: The SANE Nurse in a Multidisciplinary Approach

This session will provide an overview of Sexual Assault Nurse Examiner (SANE) nursing and its role within the multidisciplinary team (MDT). Participants will gain an understanding of how SANE nurses support survivors through specialized medical care, forensic evidence collection, and expert documentation. The presentation will highlight the exam process, clarify how SANE services strengthen both patient-centered care and legal outcomes, and emphasize the importance of collaboration between SANE nurses, law enforcement, advocacy, and prosecution to ensure a coordinated response to sexual assault.

October 15<sup>th</sup>  
2025

Mandan Law Enforcement Center,
