Multidisciplinary Team Training

Evolving Threats: Online Grooming, Extortion & AI-Driven CSAM in North Dakota

This one-hour session updates MDT members on North Dakota's shifting online exploitation landscape: platform-based grooming, sextortion surges, AI-created CSAM, and teen self-generated content. Drawing on local cases and trends, it introduces the Vigilant Parent Initiative—a parent-focused tool that highlights the top 5 apps seen in ND cases and guides crucial conversations with kids. Attendees will explore collaborative prevention, reporting, and support strategies tailored for law enforcement, advocates, interviewers, medical/social services, and business leaders.

March 18th
2026

Mandan Law Enforcement Center,
Conference Room, 205 1st Ave NW,
Mandan, ND 58554

12:00 PM CT
